

THE FORMULA FOR SUCCESS®

# Stamm 30®

Stamm 30® is a highly concentrated source of proteins, vitamins and minerals, designed for foals, weanlings, yearlings, gestating mares, lactating mares, breeding stallions and performance horses.

Stamm 30 is easy to use in conjunction with any type of feeding program or management application:

- It can be fed with oats or other unfortified grain to provide “balanced” nutrients for horses of all classes and ages.
- Stamm 30 can be mixed with textured feeds or pelleted rations when additional nutrient fortification is needed.
- Fed alone to mature horses and ponies being maintained on all forage diets (easy keepers) and to young growing horses experiencing developmental orthopedic disease (phylitis, contracted tendons, osteochondrosis) as a low calorie source of essential proteins, vitamins and minerals.
- Used as a “top dress” for performance diets when the stress of high levels of physical activity requires the maximum level of nutrient fortification.

Stamm 30 incorporates the most advanced developments in the field of equine nutrition:

- BMC™ (BUFFERED MINERAL COMPLEX)
- BIOAVAILABLE TRACE MINERALS
- NATURAL VITAMIN E
- YEAST CULTURES
- SELENIUM YEAST
