NDF, Max.	.....	38.0%
Calcium, Min.	.....	1.0%
Calcium, Max.	.....	1.5%
Phosphorus, Min.	.....	0.7%
Copper, Min.	.....	30 ppm
Selenium, Min.	.....	0.4 ppm
Zinc, Min.	.....	100 ppm
Vitamin A, Min.	.....	4000 IU/lb
Vitamin E, Min.	.....	100 IU/lb

## INGREDIENTS

Processed grain by-products, roughage products, soybean meal, L-lysine, cane molasses, vegetable oil, hydrolyzed vegetable oil (feed grade), calcium carbonate, salt, magnesium oxide, zinc proteinate, zinc oxide, manganese proteinate, manganous oxide, copper proteinate, copper sulfate, ethylenediamine dihydriodide, cobalt proteinate, cobalt carbonate, selenium yeast, vitamin A acetate, vitamin D3 supplement, vitamin E supplement, menadione sodium bisulfite complex (source of vitamin K activity), thiamin mononitrate, riboflavin supplement, niacin supplement, choline chloride, folic acid, d-calcium pantothenate, pyridoxine hydrochloride, and vitamin B12 supplement.

## FEEDING INSTRUCTIONS

Feed  $\frac{1}{2}$  to  $1 \frac{1}{2}$  pounds per 100 pounds body weight per day. Feeding levels vary with the nutrient requirements for maintenance, pregnancy, lactation, growth and work. Seasons, types of roughage, and the general condition of the horse will also affect daily feed allowances. Detailed feeding suggestions are available upon request.

In addition, provide good quality hay and/or pasture. Always provide free access to clean, fresh water and salt. We recommend that you do not feed supplemental proteins, vitamins or minerals except on the advice of a nutritionist. Consult your veterinarian concerning proper health programs, and always maintain a good worm control program.
