

# Keyflow® Stay Cool™

Pre-Digested Cooling Muesli

## Perfect for:

- Horses and ponies in light work
- Leisure and pleasure riding
- Pony club, games and riding club horses
- Low level competition horses and for health maintenance
- Where low starch, comprehensive nutrition is required

## Key Points:

- Digestibility is greatly enhanced through pre-digested (cooked) ingredients
- Delicious attractive muesli
- Contains Beetroot – a natural, healthy source of fiber and anti-oxidants
- Barefoot and laminitis friendly
- Stabilized Rice Bran – provides calm calories
- Cold Pressed Rapeseed Oil – a superior Omega 3 source
- Contains Pre-Biotics and Protexin® Pro-biotics – for gut health and feed utilization

## Product Summary

**Keyflow® Stay Cool™** is a scientifically formulated, fully balanced, low energy complimentary feed. Using only the highest quality ingredients, Stay Cool™ is high in fiber and low in sugar. Stabilized Rice Bran provides enough energy without creating fizz or nerves and high levels of Omega 3 Oils ensure all round health and vitality for healthy skin, a shiny coat and general well-being. Stay Cool™ contains equine specific amino acids and Protexin® for essential gut health and more efficient feed utilization. Superior digestibility is achieved through the combined use of wet steam extrusion and micronization.

### Ingredients

Contains micronized grains (including wheat, maize, soya flakes, peas, linseed), beetroot, steam extruded vegetable protein meals and stabilized rice bran, super-fibers, beet shreds, carrot, cold pressed rapeseed oil, vitamins and chelated minerals, biomas & protexin® probiotics.

### Analysis

Kcal/lb	1.18
Protein	11.5%
Fat	4.8%
Fiber	16%
Ash	9%
Starch	16%
Sugar	2.5%

### Daily Feeding Guide

For normal health maintenance or for horses and ponies in low to medium work: .4 lbs of Stay Cool per 100 lbs of bodyweight.

For horses in harder work or those which require an increase in healthy body condition: .5 lbs to .82 lbs of Stay Cool per 100 lbs of bodyweight.

Always provide fresh, clean water. Combine with forage/fiber totaling 1.5% - 2% of the horses bodyweight.

Feeding rates above are a guide only.
