

Keyflow® Nurture®

Pre-digested High Fiber Feed

Perfect for:

- Foals and Weanlings
- Yearlings and Yearling Prep
- 2YO's in pre-training & training
- Stallions
- Any horse which requires musculature development and growth
- Horses that have restricted access to pasture

Key Points:

- Scientifically formulated high fiber developmental feed
- Pre-digested (steam extruded) to allow for maximum nutrient absorption
- Low in sugar & starch with no molasses
- Highly palatable in large nuggets that are easily eaten off the ground
- Contains the long chain omega 3 fatty acid DHA which helps support semen mobility, mare postpartum recovery, early feeding behaviors and on going foal development.
- Nurture® has an amino acid profile carefully matched to the horses to support growth and development of the soft tissue and bone.
- Designed to be fed at lower feeding rates than traditional stud feeds

Fully Steam Extruded

High Fiber

DHA Omega 3

Low Sugar & Starch

EQ-Amino Pack

Product Summary

Keyflow® Nurture® is a scientifically formulated hi-fiber feed for stud horses as well as any horse that requires extra musculature and skeletal development and growth. Nurture® is low in sugar and starch it has been pre-digested through steam extrusion allowing maximum nutrient absorption and therefore a lower feeding rate, making it more economical to feed than traditional stud products. Containing long chain Omega 3 fatty acid, this supports semen motility, mare postpartum recovery as well as foal development and behavior. Nurture® is a large nugget which is designed to be easily picked up off the floor, chewed and digested.

Ingredients

Pressure cooked and fully steam extruded fiber & protein meals, (inclu. soya hulls, alfalfa, rapeseed, full fat soya), steam extruded cereal & omega 3 meals (inclu. wheat, rapeseed & linseed), cold pressed rapeseed oil (omega 3), heat stable vitamins & chelated minerals, vegetable source DHA (docosahexaenoic acid).

Analysis

Kcal/lb	1.3
Starch	12%
Sugars	3.2%

Ash	9.4%

Daily Feeding Guide

Dry mares, Foals/Weanlings/Yearlings/Yearling prep and 2YOs: .4 lbs to .5 lbs of Nurture per 100 lbs of bodyweight.

Working or covering stallions/in-foal mares/ horses requiring extra muscle development or condition: .6 lbs of Nurture per 100 lbs of bodyweight.

Lactating mares: .8lbs of Nurture per 100 lbs of bodyweight.

Combine with forage/fiber totaling 1.5%-2% of the horses bodyweight daily.

Feeding rates above are a guide only.
