INGREDIENTS: Soy Protein Concentrate, Dehydrated Alfalfa Meal, Lecithin, Yeast Culture Dehydrated, DL-Methionine, Sodium Selenite, Hydrated Sodium Calcium Aluminosilicate, Magnesium Oxide, L-Lysine, Vitamin E Supplement, Ascorbic Acid, Manganese Oxide, Zinc Oxide, D-Biotin, Basic Copper Chloride, Pyridoxine Hydrochloride, Thiamine Mononitrate, Folic Acid, Vitamin A Supplement, Vitamin D3 Supplement, Calcium Iodate.

Barn Bag®
Pleasure and Performance Horse
 Pelleted Low Starch
 Hay and Pasture Balancer

Feeding your horse

Barn Bag® is a combination of important vitamins, minerals, fatty acids and amino acids designed to fortify the nutrients that are deficient in the typical adult equine diet. Hay and/or pasture is the preferred source for bulk, roughage and calories. Provide free choice white salt.

For low activity, easy keepers, obesity, injury lay-up, metabolic syndrome, or insulin resistant horses: Reduce starch and caloric intake by eliminating all other feeds except hay, pasture, free choice white salt and Barn Bag®.

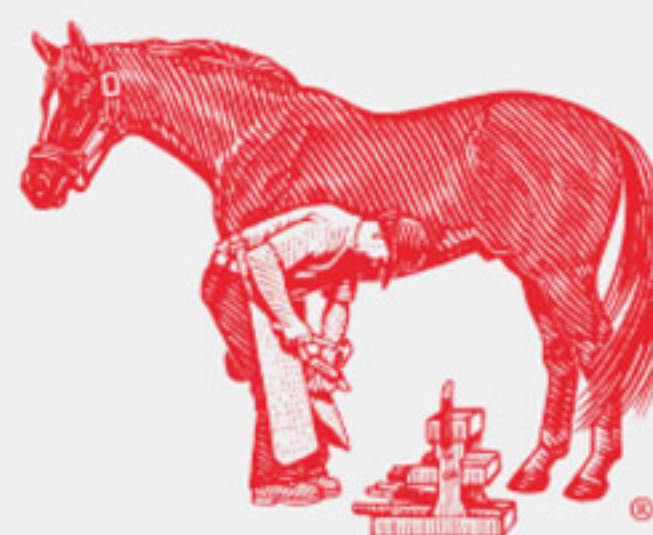

For hard keepers and working horses: An additional source of caloric intake, if needed to maintain body condition, can be provided by feeding whole oats, beet pulp, and/or vegetable oil.

Benefits of Feeding Whole Oats as a Source of Energy:

- Oats are highly digestible, palatable, often locally grown, and are typically less expensive than compounded all-in-one feeds.
- Whole oats are not as messy as sweet feeds, leaving cleaner feed buckets and minimal fly attraction.
- Feeding whole oats requires the horse to chew and salivate, helping maintain dental health, improve feed digestibility, and reduce the incidence of gastric ulcers.
- With Barn Bag®, most horses will consume less oats than a typical all-in-one feed, resulting in less waste clean up, reduced odor, fewer flies, and fewer trips to dispose of soiled bedding.

Day Supply
 For an adult 1,000 lb. horse

Pelleted Low Starch Hay and Pasture Balancer

Life Data®
LABS, INC.

An ISO 9001 Certified Company

Our Three Year Guarantee Includes:

Omega 3 Fatty Acids	Ascorbic Acid (Vitamin C)
Phospholipids	Vitamin A
Phosphatidylcholine	Vitamin D3
Biotin	Vitamin E
Lysine	Pyridoxine
Choline	Folic Acid
Inositol	Thiamine

See back panel for complete nutrient analysis and feeding instructions.

A Three Year Shelf Life Guarantee is Achieved by Pelletting and Vacuum Packaging under Nitrogen, Reducing Oxidative Damage to Nutrients.

DAILY FEEDING LEVEL

Can be fed alone or mixed with oats. For each 1000 pounds (450 kg) of body weight feed one half standard kitchen measuring cup (119 ml or 85 g) of product per day. **Cup Not Included**

Body Weight	Cups Per Day
500 lb. (225 kg)	1/4 Cup (43 g)
1000 lb. (450 kg)	1/2 Cup (85 g)
1500 lb. (675 kg)	3/4 Cup (128 g)
2000 lb. (900 kg)	1 Cup (170 g)

Barn Bag® eliminates the necessity to feed compounded feeds.

Horses may receive other supplements for specific needs, such as Farrier's Formula® for healthy hooves.
