

The Next Generation in Equine Nutrition

~Renew Gold is a combination of high fat stabilized rice bran, CoolStance® coconut meal and flax provides a uniquely efficient formulation that is lower in starch than grains or sweet feed.

~Stabilized Rice Bran provides usable energy from natural vegetable fat without behavioral issues often associated with high starch grain feeds.

~CoolStance® coconut meal is easily digested and promotes "cool energy."

~Flax is a natural source of vegetable fat and contributes Omega 3 fatty acids.

~ The fermented yeast culture helps your horse maximize the nutrition naturally found in its hay or pasture.
