

$M30_{\mathbb{R}}$

Comprehensive Nutritional Supplement for All Horses

FEATURES

- O When fed as directed, M30_® will meet or exceed all nutrient requirements of all 19 physiological classes of horses as defined in "Nutrient Requirements of Horses", National Research Council.
- Highly palatable.
- O Highly available nutrients.
- O Available in $\frac{5}{32}$ and $\frac{1}{2}$ inch diameter pellets.

FUNCTIONS

- O Balance a high energy grain ration when mixed with oats or other grains.
 - Covers all 19 physiological classifications.
 - When the energy requirement is moderate to high for growth, lactation, gestation and breeding.
- O Balance the low energy ration consisting of pasture and hay with no grain.
 - Mature horses or barren mares in which excess weight is undesirable but vitamin and mineral intake is of concern.
 - Overweight horses in which weight reduction (via dry lot) would result in insufficient intake of vitamins and minerals.
 - Horses on restricted activity (i.e. stall bound) due to injury or lack of "open space" and pasture.
 - Young horses on restricted energy intake due to bone development problems such as osteochondritis dissecans (OCD) and physitis (epiphysitis), but still have a high nutritional requirement for proteins, vitamins and minerals.
 - Horses on restricted energy intake as recommended for problems such as laminitis and equine protozoal myeloencephalitis (EPM).
- O Balance grain rations for horses requiring travel.
 - When it is not economical to ship all feed necessary to feed during travel. Energy grains such as oats can be purchased locally and balanced with $M30_{\odot}$.

FEEDING INSTRUCTIONS

- M30_® is a comprehensive supplement for all horses. It is designed to be fed alone or in varying ratios with oats to provide the desired levels of protein, vitamins, minerals, and energy in the diet. In general, 1 to 3 lb of M30_® per day per 1200 lb mature weight is all the supplementation necessary. A detailed feeding guide is on the back of the bag.
- Always provide good quality hay and/or pasture; clean, fresh water and salt. Do not feed additional proteins, vitamins or minerals except on the advice of a nutritionist.
- O Consult your veterinarian concerning proper health programs and always maintain a good worm control program.

ADDITIONAL VITAMINS/MINERALS

Vitamin K

Vitamin B1 (Thiamin)

Vitamin B2 (Riboflavin)

Vitamin B3 (Niacin)

Vitamin B6 (Pyridoxine)

Choline

Folic Acid

d-Pantothenic Acid

Vitamin B12

Magnesium

Cobalt

Iodine

Iron

.

Manganese

INGREDIENTS

Soybean meal, wheat bran, dehydrated alfalfa meal, flaxseed, dried whey, yeast culture, L-lysine, cane molasses, vegetable oil, calcium phosphate, calcium carbonate, salt, magnesium oxide, zinc proteinate, zinc oxide, manganese proteinate, manganous oxide, copper proteinate, copper sulfate, ethylenediamine dihydriodide, cobalt proteinate, cobalt carbonate, selenium yeast, vitamin A acetate, vitamin D3 supplement, vitamin E supplement, menadione sodium bisulfite complex (source of vitamin K activity), thiamin mononitrate, riboflavin supplement, niacin supplement, pyridoxine hydrochloride, choline chloride, folic acid, d-calcium pantothenate, and vitamin B12 supplement.

Available in 25 lb. (11.3 kg) pails and 50 lb. (22.7 kg) bags.

Manufactured by McCAULEY BROS., INC., 111 BROADWAY, VERSAILLES, KY 40383.
