LONGEVITY[®]

Pelleted Feed Formulated for Geriatric or Stressed Horses

FEATURES:

- Easily available nutrients in the proper balance to meet the needs of geriatric and stressed horses
- Calorie dense
- High in digestible fiber
- Formulated to promote proper gut function
- Fully fortified with all essential vitamins and minerals
- Contains natural sources of antioxidants and essential fatty acids
- Supplies nutritionally significant amount of vitamin C
- Contains added biotin
- Very palatable
- Available in ½ inch diameter pellets designed for easy chewing and absorption

FUNCTIONS:

- Helps to maintain a healthy life for horses that may be experiencing the effects of old age or stress due to sickness or heavy work
- Improves nutrient absorption and use
- Aids in maintaining and/or improving body condition of geriatric and stressed horses
- Natural and added antioxidants aid in maximizing immune function
- Biotin helps to maintain and improve hoof quality
- Helps to restore vitamin C levels normally maintained by healthy horses

FEEDING DIRECTIONS:

- Feed ½ to 1½ lb. per 100 lb. body weight and allow free choice pasture or hay.
- Feeding levels may vary with the seasons, type of forage and the general condition of the horse. In general, an average size riding horse (1000 to 1200 lb.) should consume 5 to 10 pounds of **LONGEVITY** per day.
- The amount given at any one time should be no more than 0.5% of the horse's body weight. For example, a 1000 lb. horse should be fed no more than 5 lb. per feeding.
- Always provide clean, fresh water and salt.
- Do not feed additional proteins, vitamins or minerals except on the advice of a nutritionist.
- In many cases, even horses over 20 years of age can be kept in good condition with **ORIGINAL[®] 12**. Please consult McCauley's nutritionists for more information.
- For horses experiencing difficulty in chewing hay and/or pasture, **ALAM[®]** may partially or completely replace the roughage portion of the diet.
- Both **ALAM** and **LONGEVITY** can be fed as a mash.
- Consult your veterinarian concerning proper health programs.
- Always maintain good dental care and worm control program.
