

SafeChoice® Special Care

Product Purpose: SafeChoice® Special Care is specially designed for horses that are prone to metabolic issues related to starch intake, and is formulated at just 11% starch. If you're looking to avoid corn in your horse's feed, SafeChoice® Special Care is the perfect choice. It's also ideal for easy keepers, ponies, and miniature horses.

Product Features:

-  Formulated without corn or corn co-products
-  Guaranteed amino acid levels to support muscle maintenance and development
-  Added prebiotics and probiotics to aid in digestion
-  Organic trace minerals for improved immune support and skin/coat/hoof health
-  Ideal blend of nutrients offers controlled starch and fat levels for a balanced source of energy
-  Includes **Topline Balance™**, Nutrena's unique approach to topline health

Feeding Directions:

Life Stage	Activity Level	LB Feed Per 100lb Bodyweight
Maintenance	Maintenance	0.25 – 0.50
Performance	Light exercise	0.5 – 0.75
Broodmares & Foals	1 st 2 trimesters of gestation	0.25 - 0.50
Broodmares & Foals	Last trimester of gestation	0.50 - 0.75
Broodmares & Foals	Early lactation (foaling – 3 mths)	1.0 – 1.5
Broodmares & Foals	Late lactation (3 months – weaning)	0.75 – 1.0
Broodmares & Foals	Foals	Creep Feed
Broodmares & Foals	Weanlings	1.5 – 2.0
Broodmares & Foals	Yearlings	0.75 – 1.5
Minis & Ponies	Maintenance	0.25 – 0.5
Minis & Ponies	Light Exercise	0.5 – 0.75

The following feeding directions are guidelines to maintain desired body condition and performance. Feeding rates need to be adjusted according to the horse's body condition and activity level. Divide the recommended daily feeding rate into 2 or more meals per day and feed with good quality hay or pasture equivalent at the rate of 1.0-1.75 LB per 100 LB bodyweight or kg per 100 kg bodyweight to provide a minimum of 50% of the diet from forage.

Performance horses may benefit from being fed more frequently. Clean water should be available at all times. Horses that have been exercised should be cooled out and re-hydrated properly before being fed and before having access to unlimited water.

CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.
