

Formulated With

HIGH-FAT SUPPLEMENT

 PURINA

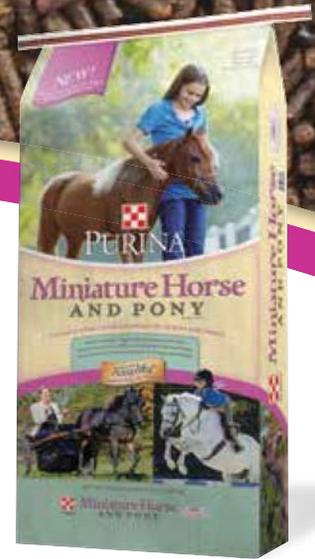

Miniature Horse AND PONY

HORSE FEED

Specially Formulated for Miniature Horses and Ponies

Purina® Miniature Horse and Pony horse feed is specifically formulated to meet the unique needs of miniature horses and ponies who tend to be more metabolically efficient than large horses, but still require the nutrition necessary for growth, gestation, lactation, breeding and competition.

A NAME YOU CAN TRUST. A DIFFERENCE YOU CAN SEE.®

Thanks to extensive research and field testing, Purina has learned how certain nutritional advantages can help horses and ponies be more active and productive during their lifetimes.

The Purina® Amplify® Nugget is a palatable, high-fat, extruded particle providing calories for weight gain, performance, lactation and sales prep in a nutritionally balanced formulation that has controlled carbohydrate levels.

This proprietary feed supplement can be found only in Purina® Horse Feeds including Omolene #200®, #300®, #400® #500®, Equine Junior®, Equine Senior®, Strategy® Healthy Edge®, Ultium® Competition, Ultium® Growth and Purina® Miniature Horse and Pony horse feeds.

Features of the Purina® Amplify® Nugget include:

- Balanced nutritional fortification
- Palatable, extruded particle for easy digestion and calorie absorption
- Proprietary blend of vegetable oils, flaxseed and rice bran creates an optimal fatty acid profile
- No trans-fats
- Added amino acids help promote proper development of muscle, bone, skin, hair and hooves

FEATURES & BENEFITS

The Purina® Amplify® Nugget is a proprietary, high-fat extruded particle that contains a proprietary blend of vegetable oils, flaxseed and rice bran for an optimal fatty acid profile that supports strong immune function.

High Quality Proteins

Proprietary amino acids (building blocks of proteins) that support strong muscle growth, shiny coat and healthy hooves.

Beet Pulp
FOR SLOW-RELEASE ENERGY

Contains beet pulp inside the pellet as an excellent source of fermentable fiber for slow-release energy.

Nutritionally Balanced

Provides 100% of the required nutrients for horses when fed as directed* so no additional supplements are necessary.

*Based on "Nutrient Requirements of Horses Sixth Revised Edition - 2007" published by the National Research Council.

Highly Digestible Ingredients

Provides nutrient density and supports proper digestion.

Consistently fresh, QUALITY ingredients

Superior, consistent nutrition.

incredibly PALATABLE

Premium formulation with high-quality ingredients for excellent palatability.

Controlled Sugar & Starch

May help reduce the risk of adverse health effects caused by the management error of overfeeding.

The FeedGuard® Nutrition System is one of the industry's most innovative and exacting quality assurance programs. It can help deliver the trust, quality and performance that horse lovers demand every day.

DAILY FEEDING CHART FOR MINIATURE HORSES AND PONIES

LIFESTYLE	MATURE WEIGHT OF MINIATURE HORSE/PONY IN POUNDS						
	100	200	300	400	500	600	700
MATURE MINIATURE HORSES/PONIES							
	(lbs/day)						
<i>Minimum Hay or Equivalent Pasture (lbs/day)*</i>	1.2	2.4	3.6	4.8	6.0	7.2	8.4
	Miniature Horse and Pony Feed (lbs/day)**						
Maintenance	0.4	0.9	1.3	1.7	2.1	2.6	3.0
Light Work	0.7	1.3	2.0	2.6	3.3	4.0	4.6
Moderate Work	0.9	1.8	2.7	3.6	4.5	5.4	6.4
Early Gestation (first 250 days)	0.4	0.9	1.3	1.7	2.1	2.8	3.2
Late Gestation (last 90 days)	0.7	1.4	2.0	2.7	3.4	4.1	4.7
Lactation (when fed separately)***	1.5	3.0	4.4	5.9	7.4	8.9	10.4
Breeding Stallion	0.8	1.6	2.4	3.1	3.9	4.7	5.5
GROWING MINIATURE HORSES/PONIES							
Weaned Foal							
Weight of Horse in Pounds	50	100	150	200	250	300	350
<i>Minimum Hay or Equivalent Pasture (lbs/day)*</i>	0.6	1.2	1.8	2.4	3.0	3.6	4.2
Miniature Horse and Pony Feed (lbs/day)**	0.6	1.1	1.7	2.3	2.8	3.4	4.0
Yearling							
Weight of Horse in Pounds	75	150	225	300	375	450	525
<i>Minimum Hay or Equivalent Pasture (lbs/day)*</i>	0.9	1.8	2.7	3.6	4.5	5.4	6.3
Miniature Horse and Pony Feed (lbs/day)**	0.8	1.6	2.3	3.1	3.9	4.7	5.4
Two-year-old							
Weight of Horse in Pounds	85	175	250	350	425	525	600
<i>Minimum Hay or Equivalent Pasture (lbs/day)*</i>	1.0	2.1	3.0	4.2	5.1	6.3	7.2
Miniature Horse and Pony Feed (lbs/day)**	0.7	1.4	2.1	2.7	3.5	4.1	4.8

*This is the recommended minimum amount of hay to be fed. If feeding more hay, reduce the feeding rate of Purina® Miniature Horse and Pony Feed by 0.5 lb for every 1.0 lbs of additional hay fed. EXAMPLE: Using the chart above, if feeding 7 lbs instead of 6 lbs of hay to a 500 lb light working pony, reduce Purina® Miniature Horse and Pony Feed offered by 0.5 lb from 3.3 to 2.8 lbs per day.

**Do not feed less than 0.3 lbs per 100 lbs of body weight per day. EXAMPLE: A 200 lb miniature horse has two 100 lb increments (200 divided by 100 = 2). So for this horse, do not feed less than 0.6 lbs per day (2 x 0.3 = 0.6 lbs per day). If your horse gains too much weight at that minimum feeding rate, then you should replace Purina® Miniature Horse and Pony Feed with Purina® Enrich Plus® Ration Balancing Feed.

***If foal and mare are fed together, increase amount offered by 0.25 lbs per month of age (of the foal) per day for miniature horses, and 0.5 lbs per month of age (of the foal) per day for ponies.

FOR BEST FEEDING RESULTS

- Feed at regular times. Do not feed more than 0.5 lbs per 100 lbs of body weight in one serving. Divide total daily feeding into at least two servings with three daily servings preferred. Be sure to weigh your feed using a scale. A small scale can be purchased in the fishing department of many sporting goods stores.
- Feed horse in a natural position from troughs placed at normal head height or lower. Do NOT feed free-choice (all the horse wants).
- Reduce and/or delay feeding a horse that is hot, excited or showing pain, fever or diarrhea. Consult your veterinarian if any problems arise. Prevent rapid eating.
- Always feed a minimum of 1.0 to 1.2 lbs per 100 lbs of body weight of good quality, clean hay or pasture. Inadequate amounts or poor quality hay may lead to colic and other digestive disturbances.
- Have plenty of fresh, clean water available at all times, except immediately after intense physical exercise.
- Provide your horse with access to salt.
- Maintain a regular deworming program, have the horse's teeth examined annually and consult your veterinarian on a regular basis.

IF CHANGING TO PURINA® MINIATURE HORSE AND PONY HORSE FEED:

- Make the feed change gradually over a period of 7 to 10 days.
- Mix the new feed with the old, gradually increasing the amount of the new feed while decreasing an equal amount of the old.
- Changes in the rate of feeding should not exceed 0.1 lb per 100 lbs of body weight per day for each horse.

CAUTION:

- Always follow label directions. Feeding added selenium resulting in total diet levels in excess of 0.3 ppm is prohibited.
- Store in a dry, well-ventilated area protected from rodents and insects.
- Do not feed moldy or insect-infested feed to animals as it may cause illness or death.
- Please consult the tag sewn onto the bag for complete feeding instructions.
