Healthy Appearance

Contains **AMPLIFY**® High-Fat Nugget to maintain body condition, shine and bloom

Nutritious Whole Grains

A natural source of antioxidants, phytonutrients and prebiotic fibers

Innovation built on 100 years of scientific research & equine expertise

It took more than 100 years of industry-leading research and innovation to build today's Purina® Omolene® horse feed lineup. We started with naturally nutritious, high-quality whole grains packed with antioxidants, phytonutrients and prebiotic fibers. From there, we conducted countless nutrition studies and feeding trials at the Purina Animal Nutrition Center, leading to scientific breakthroughs that keep our formulas on the cutting-edge of equine nutrition and performance, with exceptional palatability and year-round quality. Feed with full confidence knowing only the best innovations proven to have the highest level of performance and safety earn their place in Purina® Omolene® horse feeds.

Guaranteed Analysis

Crude Protein (min)	12.00%
Lysine (min)	0.65%
Fat (min)	8.00%
Fiber (max)	9.00%
ADF (max)	12.00%
NDF (max)	27.00%
Calcium (min)	0.80%
Calcium (max)	1.30%
Phosphorus (min)	0.50%
Copper (min)	55 ppm
Selenium (min)	0.60 ppm
Zinc (min)	220 ppm
Vitamin A (min)	3,000 IU/lb
Vitamin E (min)	150 IU/lb

Feeding instructions

Start with the amounts of Omolene[®] 500 Competition Horse Feed given for the weight and lifestyle of the horse. After observing the horse for a period of time, the amount fed may be gradually increased or decreased to obtain the desired body condition and weight. For feeding directions outside the ranges addressed in these feeding charts, please contact your local Purina retailer or Purina Customer Service at 800-227-8941.

LIFESTYLE	Weight of horse in pounds		
	800	1,000	1,200
Minimum Hay or Equivalent Pasture*	9.50	12.00	14.50
Omolene [®] 500		(lbs/day)**	
Light Work	4.25	5.25	6.25
Moderate Work	5.75	7.00	8.25
Heavy Work	7.25	8.75	10.50

*This is the recommended minimum amount of hay to be fed. If feeding more hay, you may reduce the feeding rate of Omolene[®] 500 Horse Feed to maintain appropriate body condition.

**Do not feed less than 0.3 lbs per 100 lbs of body weight per day for mature horses (3 lbs per 1000-lb horse). If your horse gains too much weight at that minimum feeding rate, transition to Purina[®] Enrich Plus Ration Balancing Feed.

Feeding rates of Omolene[®] 500 Horse Feed and forage may be adjusted or feed may be top-dressed with Purina[®] Amplify[®] High-Fat Supplement for additional calories. Hard-working horses may also benefit from supplementation with Purina[®] Supersport Amino Acid Supplement.

A 4 lb meal of Omolene[®] 500 supplies a full serving of Outlast[®] supplement.
