

TRIPLE CROWN®

14.5% Protein • 12.5% Fat • 18% Fiber • 1,800 KCAL/lb.

Developed for active, older horses, Triple Crown Senior Gold features a beet pulp-based formula with higher fat, an expanded amino acid profile and gastric buffering, which is ideal for performance horses or those under stress.

IDEAL FOR: Mature horses, hard keepers and those prone to gastric ulcers and PSSM

Guaranteed Analysis:

Crude Protein (min.)	
Lysine (min.)	0.90%

Bacillus Subtilis Dried Fermentation Product (min.)	27 million CFU/lb.
Saccharomyces Cerevisiae Yeast Culture (min.)	1.77 billion CFU/lb.
Cellulase (Trichoderma Longibrachiatum) (min.)	0.69 million CU/lb.
Protease (Bacillus Subtilis) (min.)**	1,389 HUT/lb.

*One cellulase unit (CU) is defined as the amount of activity that will produce a relative fluidity change of 1 (determined with a calibrated viscometer) in 5 minutes in a defined carboxymethylcellulose substrate at pH 4.5 and 40°C" ** One hemoglobin unit (HUT) of proteolytic (protease) activity is defined as that amount of enzyme that produces, in one minute under the specified conditions, a hydrolysate whose absorbance at 275nm is the same as that of a solution containing 1.10g per mL of tyrosine in 0.006N hydrochloric acid.

Ingredients:

(Free from Restricted Ruminant Protein Products per Title 21, CFR 589.2000/2001)

Shredded Beet Pulp, Dehydrated Alfalfa Meal, Wheat Middlings, Soybean Hulls, Dehulled Soybean Meal, Distillers Dried Grains, Ground Flaxseed, Stabilized Rice Bran, Dried Whey, Cane Molasses, Soybean Oil, Flaxseed Oil, Calcite, Calcium Carbonate, Monocalcium Phosphate, Dicalcium Phosphate, Magnesium Oxide, Yeast Culture, Hydrolyzed Yeast, Dried Enterococcus Faecium Fermentation Product, Dried Lactobacillus Acidophilus Fermentation Product, Dried Bacillus Subtilis Fermentation Product, Dried Trichoderma Longibrachiatum Fermentation Extract, Dried Bacillus Subtilis Fermentation Extract, Zinc Hydroxy Chloride, Manganese Hydroxy Chloride, Copper Hydroxy Chloride, Vegetable Oil, Butyric Acid, Zinc Oxide, Peppermint Essential Oil, Kelp Meal, Lecithin, Magnesium Proteinate, Selenium Yeast, Lysine, DL-methionine, L-Threonine, L-Leucine, Salt, Sodium Bicarbonate, Fenugreek Seed, Anise, Ascorbic Acid (Source of Vitamin C), Niacin Supplement, Biotin, Vitamin A Supplement, Vitamin E Supplement, Thiamine Mononitrate, Beta Carotene, Calcium Pantothenate, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Vitamin D3 Supplement, Choline Chloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Folic Acid, Hydrated Sodium Calcium Aluminosilicate, Brewers Dried Yeast, Manganese Sulfate, Zinc Sulfate, Copper Sulfate, Cobalt Proteinate, Iron Amino Acid Complex, Ethylenediamine Dihydroiodide, (Propionic Acid, Sodium Benzoate, Potassium Sorbate (Preservatives)).

Feeding Directions:

Triple Crown Senior Gold is designed for horses that have difficulty consuming hay and traditional horse feeds in pelleted or textured form due to damaged or worn teeth. The nutrient concentration of Senior Gold has also been adjusted to provide a greater allowance to older and other metabolically challenged horses that sometimes experience difficulty digesting and/or metabolizing normal feedstuffs, minerals and vitamins.

IF YOUR HORSE CAN EAT HAY: Provide good quality hay and/or pasture, salt and fresh, clean water on a free-choice basis. Adjust the amount of Triple Crown Senior Gold fed on a daily basis in order to maintain body condition at a moderate level. Begin with approximately 6 lb. per day and then adjust up or down as needed after 2 to 4 weeks in order to maintain desired body condition. Do not feed more than 5 lb. of Triple Crown Senior Gold at a single meal. Allow 3 to 4 hours between meals when feeding 4 to 5 lb. at a single meal.

IF YOUR HORSE HAS DAMAGED OR WORN TEETH AND CANNOT EAT HAY: Triple Crown Senior Gold can be fed as the sole feed for your horse. Provide salt and fresh, clean water on a free-choice basis. Adjust the amount of Senior Gold fed on a daily basis in order to maintain body condition at a moderate level. Begin with approximately 12 lb. per day and then adjust up or down as needed after 2 to 4 weeks in order to maintain desired body condition. Do not feed more than 5 lb. at a single meal. Allow 3 to 4 hours between meals when feeding 4 to 5 lb. at a single meal. Water should be added to at the rate of approximately 1 cup of water per 2 to 3 lb. of Senior Gold 10 to 15 minutes prior to feeding. The amount of water added can be adjusted to meet the desires of the individual horse.

NOTE: Provide plenty of fresh, clean water at all times. Keep product fresh in cool, dry storage. Examine product daily. DO NOT use if old, moldy or contaminated with insects.
